Product Overview

Diesel Exhaust Fluid is an environment friendly additive used in vehicles equipped with Diesel engines (Euro 4, 5, 6).

Reduce vehicle emissions by 70%.

Key facts

- 100% Quality ISO2241 Standards
- 32.5% SCR-Urea
- Emission Control
- Non Hazardous, Non Flammable
- HS Code: 31021000
- Competitive Price

DIESEL EXHAUST FLUID

DEF

Vehicles equipped with SCR require DEF to reduce emissions levels. Proven technology and helps improve vehicle performance.

SCR Technology

DEF when added to SCR, converts harmful NOx from the engine exhaust into CO2 and Water.

Packaging Options

DEF is offered in multiple options including 10L Pail, 20L Pail, 1,000L IBC or Bulk supply via Tanker.

Drive Blue

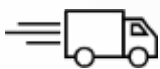

10+ Years of consistent product manufacture and supply. Leading brand in the Middle East for high quality DEF. Readily available .

Technical Specs of DEF

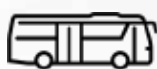

Strict adherence to ISO22241 is required to ensure smooth running of the vehicle and reduced emissions.

Usage methods

The Pail can be kept in vehicle and filled when required. Alternately, it can be filled from IBC at garage during service and refilling.
